*“The missing piece to your Logistics puzzle”*

- ❑ Senior Management knowledge, experience and expertise is a valuable commodity that can help you to plan and realise your organisation’s growth, improvement and development strategies.
- ❑ A non-bias experienced independent resource can objectively and constructively compliment your existing management structure bringing a new fresh perspective and ideas to the table.
- ❑ At **QLC** our CEO has a career spanning over 37 years in the Logistics industry having held senior positions including at Board level with a number of the well known global players and also owned and operated SME 3pl organisations.
- ❑ The **QLC** Non-Executive Director Support provides a saving on an equivalent permanent full time hire at such a senior experienced level. Support can be acting in an ongoing advisory capacity or working with you on a specific project or goal.
- ❑ Naturally all engagements will be subject to the strictest confidentiality and non disclosure agreements.
- ❑ *Let **QLC** help and support your organisation to WIN!*

## Anthony’s Ambition

*“I’ve always had a “hands-on approach”, utilising the management skills, industry knowledge and customer experiences I have gained to help ‘make a difference’ to a company’s business success and market share.*

*My experience and achievements to date have helped to positively grow all the companies I have served. I am confident the attributes I have accumulated can be beneficial and transferable to help **QLC** drive the growth and development of the Logistics organisations we pleased to serve”.*
